

glandex®

About Glandex

Glandex is an oral supplement specifically designed for anal gland problems in dogs and cats with guaranteed results. This innovative formula is a scientific breakthrough in reducing anal gland problems and is a more effective and less irritating than frequent anal gland expressing. Glandex is formulated with key ingredients that work from the inside out to target all of the underlying causes of anal gland problems and help pets naturally empty their anal glands. In addition, Glandex is formulated with probiotics and digestive enzymes to support a healthy digestive tract, which in turn supports healthy anal gland function.
